Ajuda per controlar de forma remota el Linux a partir de Windows <a href="https://askubuntu.com/questions/592537/can-i-access-ubuntu-from-windows-remotely">https://askubuntu.com/questions/592537/can-i-access-ubuntu-from-windows-remotely</a> <a href="https://www.linuxquestions.org/questions/linux-software-2/xrdp-password-failed-error-problem-connecting-4175583547/">https://www.linuxquestions.org/questions/linux-software-2/xrdp-password-failed-error-problem-connecting-4175583547/</a> <a href="https://bugs.launchpad.net/ubuntu/+source/xrdp/+bug/1811122">https://bugs.launchpad.net/ubuntu/+source/xrdp/+bug/1811122</a>

Modifica el següent arxiu:

I després el següent:

```
GNU nano 2.5.3 Archivo: /etc/xrdp/sesman.ini

param4=tcp

[Xvnc]
param1=-bs
param2=-ac
param3=-nolisten
param4=tcp
param5=-localhost
param6=-dpi
aram7=96
param8=-SecurityTypes
param9=None
```
